

AI FOR WORK THAT CAN'T BE WRONG

Law firm operations, measured in results.

Two high-stakes workflows Caddi runs for law firms today, and what they delivered.

WORKFLOW 01 • TIME ENTRY

\$1M+

in billable time captured in three months, including an estimated \$180K that would otherwise have been missed. About \$720K a year: a 12× return on one workflow.

WHAT CADDI DOES

Drafts attorney time entries from daily activity across seven systems, with the right matter and billing details, for attorney review before posting.

~1,650

time entries drafted in a single month

~1,150

billable hours captured in three months

~10,700

work items analyzed

54 steps per run • 97.8% run success

WORKFLOW 02 • CLIENT INTAKE

5,300+ hrs

of intake work automated, about 2.5 paralegal-years.

WHAT CADDI DOES

Turns client texts, emails, photos and documents into an organized case file and a structured case record in Salesforce.

60 → 5 min

per case

~950

client documents filed per month

2,400+

CRM records created or updated monthly

76 steps per run • 99.6% run success

2M+ actions

run by Caddi Hybrid Agents: AI reads the work, code completes it the same way every time.
