

Bill every 0.1. Clear every conflict. Send every bill clean.

Harvey and Copilot work on the practice. Caddi runs the business side: the time, intake and billing work your staff retypes between systems.

0.1

BILLED, NOT WRITTEN OFF

TIME ENTRY

Every day's time, drafted for you.

Email, calls and meetings become draft entries on the right matter. Attorneys approve the day instead of rebuilding the month.

"I usually didn't bill 0.1s, but now with this, maybe I'll bill point one." Partner, law firm

150

CONFLICT CHECKS A DAY

INTAKE AND CONFLICTS

New matters opened the day they arrive.

Intake is captured once and carried into conflicts, the matter system and docketing. Reviewers see the real hits, not a 100-page report.

Automated at an Am Law 100 firm.

0

BILLS SENT UNCHECKED

PREBILL REVIEW

No partner markups. No revenue dropped.

Every prebill is checked against the client's billing guidelines before it goes out, so problems are fixed before the invoice exists.

"So if we can get even a 0.8, .9, 1.2 every day, this thing pays for itself."

PARTNER, LAW FIRM

Start with one.

A pilot on your own systems.
